INTRODUCTION

The Industrial Sourcing Directory has been developed to provide a source of information on the selected industrial service capabilities that exist in Manitoba.

The 390 firms listed in this directory provide 108 unique services. The computerized data base, from which this information is derived, contains additional data relating to the companies capabilities and can provide more specific firm selections by company size, geographic location and market coverage.

The Directory is composed of two sections. Part I, lists the service categories, identifies the individual firms in each category together with their geographic location (coded to the Official Regions For Data Collection). Part II lists alphabetically all businesses included in the Directory detailing their individual services.

The Directory represents firms and their service(s) listed as of September 15, 1987.

Should you have any questions or suggestions, please contact:

Trade Branch
Manitoba Department of
Industry, Trade and Technology
4th Floor, 155 Carlton Street
Winnipeg, Manitoba
R3C 3H8
Telephone: (204) 945-3689

Industrial service firms not currently listed in the Directory are encouraged to contact the Manitoba Bureau of Statistics, 6th Floor 155 Carlton Street, Winnipeg, Manitoba, R3C 3H8, (204) 945-2995.
